The service performed by the several lines of ocean mail steamships is treated at large. The Postmaster General is of opinion that the compensation now received is too large, and that the present system is calculated to drive off private competition. He also states that the Nicaragua company have offered to carry a weekly mail between New York and Califor. nia for the sum of \$600,000 per annum, which he thinks is the highest rate of pay which ought to be demanded. The cost this year for a semi-montly mail, by the isthmus route, is \$757,977 03.

No postal convention has as yet been effected with France; but one is about h ing made with Mexico.

Arrangements have been made with the Australia line of monthly packets to convey mails regularly between New York and Australia. The rates on all outgoing matter have been fixed at five cents a letter two cents each for newspapers, and one cent an ounce for pamphlets and magazines These rates embrace both the United States inland and sea postage.

The fines and deductions during the past year amount to \$110,486. The amount for the previous vear was \$37,920. The appendix which accompanies the report contains a vast amount of useful information, which will

United States Congress. WASHINGTON, DECEMBER 11, 1854. SENATE -Mr. Badger presented the credentials of Mr. Reid of North Carolina, and be was qualified and took his seat. Mr. Adams of Mississippi, introduced a bill to establish an uniform rule of naturalization, extending the time for naturalization to 21 years and acting prospectively upon those foreigners only who may enter the United States after the passage of said act. Mr. Adams addressed the senate at some ength in support of his bill. He argued that in one hundred years every inch of the American continent would be required for the support of the American people, and self-preservation required that no inducenents should be held out to immigration. He disclaimed any infection of Know-Nothinism or hostility to foreigners; but he thought immigration dangerous, inasmuch as foreigners had banded themselves together with the abolitionists. When he had heard

THE SOULE AFFAIR.

The Official Correspondence. The following is the official correspondence which ing" of this State, the office of Governor of North Carolina hath been vacated, by the said David S. government to let Mr. Soule pass through France on nis way to Madrid :

Minister Mason to Secretary Marcy. LEGATION UNITED STATES.) PARIS, Oct. 30, 1854.

Sin :- An incident of very grave import has transpired. In my No. 26, I communicated the intelligence that Mr. Soule, United States Minister to Spain, had been prohibited, by alleged orders of the Emperor's government, from entering France.

That I might, without delay, ascertain the facts of this extraordinary and unusual proceeding, I sent Mr. Piatt, Secretary of this Legation, to Dover to communicate with Mr. Soule. He left Paris in the evening of the 25th, and on his arrival, finding that Mr. Soule had left Dover, he proceeded to London, where he had an interview with that gentleman.

The order forbidding his entering France was wholly unknown to Mr. Soule, and he assures me that neither by deed nor by word, uttered or written, had he afforded a shadow of excuse for the wanton measure which, in violation of his rights as a citizen of the North American republic, and of his privileges as one of its accredited Ministers, has interdicted to him a passage through France on his way back to Madrid. I lost no time after the return of Mr. Piatt in addressing to the Minister of Foreign Affairs, under date of the 27th inst., a communication, of Some considerable time was consumed over the bill which I send you a copy. It was sent to the Foran answer.

It is impossible not to regard this humiliating indignity as deeply injurious, when it is remembered that Mr. Soule, acting under your orders, have reintimation that his presence was objected to by the

for the files of the Legation. Until the receipt of this note, I had understood the prohibition of Mr. Soule's entering France to be unqualified; and such, too. was the understanding of at gentleman-for, by reason of its execution, he

had to return to England. On the 6th instant I addressed to the Minister of Foreign Affairs a communication, of which I send you herewith a copy. I have received no reply, and presume it will conclude a correspondence which I felt it to be my duty to open, without waiting for special instructions from the President. The result, am happy to say, is that no impediment exists to the passage of the American minister accredited to the Spanish government through France to his place of official duty. This is recognized, beyond doubt, a principle of the law of nations, interesting to every country, because its denial would seriously embarras the maintenance of diplomatic missions, whose influence in promoting peace and preserving good relations in the family of nations is universally acknow-
